Asad Naeem

Full Stack Developer (MERN) | React.js · Node.js · MongoDB · Express | Python & ML | Building Scalable Web Apps | CS Final Year @ COMSATS | Open to Internships & Freelance
Vehari, Punjab, Pakistan

Summary

I build things for the web fast, clean, and scalable. From full-stack MERN applications to machine learning models that hit 90%+ accuracy, I turn ideas into working software. I'm Asad Naeem, a Final-Year Computer Science student at COMSATS University Islamabad, specializing in Full Stack Development with the MERN stack (MongoDB, Express.js, React.js, Node.js). Over the past two years, I've shipped real projects not just coursework including a cloud-ready academic paper submission portal, a complete bank management system, and an NLP-powered fake news detection model. What I bring to the table: → Full Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS → Backend & Data: Python, SQL, MySQL, REST APIs → ML/AI: Scikit-learn, TF-IDF, Logistic Regression, Random Forest (90% accuracy on NLP tasks) → Tools: Git, GitHub, VS Code, Jupyter Notebook Beyond code, I've competed and placed 2nd in a university-level SQL challenge, contributed to social impact campaigns, and represented my university at inter-university events because great developers aren't just great at coding. I'm actively looking for internships, entry-level roles, or freelance opportunities in Full Stack or MERN Stack development local and remote. Let's build something great together. asadnaeem0255@gmail.com |

Experience

Devugo Tech

Full Stack Developer

October 2024 - Present (1 year 7 months)

- Developed and maintained full-stack web features using React.js, Node.js, and Express.js in a part-time professional capacity.
- Collaborated with the team to build responsive UI components and REST API integrations.

▸ Contributed to codebase using Git version control and agile workflows in a real-world production environment.

Education

COMSATS University Islamabad

Bachelor of Science - BS, Computer Science · (September 2022 - June 2026)

Punjab Group Of Colleges

Inter of Computer Science , Computer Science · (October 2020 - July 2022)
